Tubagus Alwasi'i

Ungraduated Computer Science Student
Semarang, Jawa Tengah, Indonesia

Ringkasan

Hello everyone, my name is Tubagus Alwasi'i. I am a 8th semester student of Informatics Engineering at Universitas Islam Sultan Agung Semarang. I am interested in the field of information technology because I like to solve problems and create something new. I see information technology as a tool that can be used to solve problems and make the world a better place. I want to use my skills to create innovative and beneficial solutions for society. During my college years, I have participated in various activities and organizations, such as the UKM Basketball Club. Through these activities, I have learned a lot and met new people who share the same interests. After graduation, I want to work in the field of information technology, such as becoming a game developer, android developer, or web developer. I also want to continue my studies to a higher level, such as a master's or doctorate degree. I am a person who likes to learn and is enthusiastic about trying new things. I also like to work with others and share knowledge.
