Tubagus Alwasi'i

Full-Stack Web Developer | Machine Learning & NLP | Laravel & Filament

Yogyakarta, Yogyakarta, Indonesia

Summary

I am an Informatics Engineering graduate from Universitas Islam Sultan Agung with a strong passion for building innovative digital solutions. My core interest lies at the intersection of robust software development and intelligence systems—specifically Machine Learning and AI Engineering. Throughout my journey, I have focused on bridging the gap between scalable backend systems, intuitive user experiences, and smart technology. Currently, as a Computer Specialist (Pranata Komputer) Intern at Balai Diklat Industri Yogyakarta (via MagangHub), I specialize in developing web-based enterprise solutions using Laravel and Filament, optimizing administrative workflows and document management systems. Previously, I sharpened my mobile development skills as an Android Developer in the Bangkit Academy program, which also sparked my fascination with integrating modern AI capabilities into real-world applications. I thrive on solving complex technical challenges, exploring cutting-edge AI architectures, and turning data into actionable features. I am actively looking to contribute to forward-thinking tech teams as a Software/AI Engineer.

Experience

Balai Diklat Industri Yogyakarta
Pranata Komputer Intern
December 2025 - Present (6 months)
Yogyakarta

Worked as a Pranata Komputer Intern through the MagangHub program. Developed and enhanced web-based systems using Laravel and Filament, implemented document management features, performed debugging and testing, and collaborated with the team to improve system functionality and user experience.

Bangkit Academy led by Google, Tokopedia, Gojek, & Traveloka
Android Developer

August 2023 - January 2024 (6 months)

Indonesia

Selected as an Android Development cohort at Bangkit Academy led by Google, Tokopedia, Gojek, & Traveloka. Gained hands-on experience in Kotlin, mobile app development, collaborative projects, and agile teamwork while building innovative digital solutions.

Education

Universitas Islam Sultan Agung Semarang

Sarjana Komputer (S.Kom.), Teknik Informatika · (September 2021 - November 2025)
